

GENDER IN LIFE-COURSE RESEARCH

JOINT WORKSHOP OF THE DOCTORAL AND EQUALITY PROGRAMMES

September 13th and 14th, 2017

Place: University of Lausanne, Géopolis Building, Room 1620 (September 13th) and Room 2238 [TBC] (September 14th)

Speakers:

Dr Gaëlle Aeby, University of Lausanne & NCCR LIVES

Prof. em. René Lévy, University of Lausanne

Dr Anne Perriard, EESP & NCCR LIVES

Prof. Alison Woodward, Free University of Brussels

Gaelle.Aeby@unil.ch

Rene.Levy@unil.ch

Anne.Perriard@eesp.ch

Alison.Woodward@vub.ac.be

Abstract:

In the last years, strong incentives have been given to “fix the science” through gendered research and innovation (GRI). This means that gender and sex analysis have to be properly integrated into research processes themselves. The NCCR LIVES has, from its beginning, given special attention to gender in its research programme – in particular in IP6/206, but not only. In this module we will raise attention regarding the gendered dimensions researchers have to tackle in life-course analysis.

The module is composed of two different activities. On the first day, participants are invited to attend the lecture given by Alison Woodward “Challenges of diversity in Europe: Mobilizing talents for research grant success” and the following roundtable on “Gender in science”. The second day will be a closed module where LIVES’ senior and junior researchers will explain why and how they have integrated gender in their research on life course. Both qualitative and quantitative approaches will be discussed. Participants will be invited to share their concerns about the ways they integrate gender (or not) in their research. Time slots are dedicated to discussions among the participants to enable everybody to be able to reflect on the gender dimension (or its absence) in their reflections.

Detailed programme

Day 1 - September 13, 2017, Géopolis Building, Room 1620

12:00 - 13:30: Lecture by Prof. Alison Woodward “Challenges of diversity in Europe: Mobilizing talents for research grant success” and roundtable (see flyer at the end of this document or https://lives-nccr.ch/en/gender_2017)

Day 2 - September 14, 2017, Géopolis Building, Room 2238

09.00 - 09.15: Welcome coffee

09.15 - 09.45: Introduction and roundtable presentation of speakers and participants

09.45 - 10.45: Lecture by René Levy

10.45 - 11.15: Coffee break

11.15 - 12.30: Group discussion

12.30 - 14.00: Lunch

14.00 - 15.30: Lectures by Gaëlle Aeby and Anne Perriard

15.30 - 16.00: Coffee break

16.00 - 17.30: Final group discussion

Organisation and coordination: Sabine Kradolfer, NCCR LIVES, Equality Officer.

Languages: English

Registration for this event is mandatory. Please send your full name and affiliation to Delphine.Fagot@unige.ch **by September 6, 2017**.

If you have any questions, do not hesitate to contact Sabine Kradolfer, LIVES Equality Officer (Sabine.KradolferMorales@unil.ch) and/or Delphine Fagot, LIVES Doctoral Programme Officer (Delphine.Fagot@unige.ch)

INTEGRATING GENDER IN SCIENCE

"Challenges of diversity in Europe: Mobilizing talents for research grant success"

By **Alison Woodward** (Ph.D. University of California, Berkeley), Research Professor at the Free University of Brussels (VUB) and Co-Director of RHEA, the Center for Gender Studies and Diversity Research.

The lecture will discuss the extent to which issues of gender and national diversity are being taken into account by major funders in the European research area, and how it can affect research innovation.

Followed by a round table with:

- Dr. **Carole Clair Willi**, Physician (CHUV & UNIL)
- Prof. **Farinaz Fassa**, Sociologist (UNIL & NCCR LIVES)
- Prof. em. **René Levy**, Sociologist (UNIL)
- **Damien Michelet**, Coordinator PlaGe (UNIL)

Date: September 13, 2017

Time: 12:00 to 13:30

Place: UNIL Géopolis, room 1620
